SARAH BEDDINGTON: 'CROSSING' This multimedia solo show by Ms. Beddington, a British artist, evokes the journey of the Experiment, the second sailing ship to make a direct crossing from the United States to China at the end of the 18th century. A 20-foot-long silverpoint map traces the voyage down the Hudson River from Albany, where the ship was built; a three-channel video follows the voyage at sea, mixing past and present, reality and mirage; a sound piece adds maritime atmosphere. The gallery setting, in an area of Brooklyn once associated with shipping, is ideal. Dumbo Arts Center, 30 Washington Street, Brooklyn, (718) 694-0831, dumboartscenter.org, through Nov. 16. (Cotter)
